CAREER OBJECTIVE

Computer Science Engineering graduate with hands-on experience in full stack development using Python, Django, HTML, CSS, and JavaScript. Passionate about building responsive web applications and solving real-world problems through clean code and data-driven thinking.

EDUCATION

B.E. Computer Science Engineering

2022 – 2026

Sri Krishna College of Engineering, Tamil Nadu

INTERNSHIP EXPERIENCE

OCR Intern – E16 AI Pvt. Ltd.

2025 – 2026

- Developed and implemented Optical Character Recognition (OCR) solutions for text extraction from scanned documents.
- Applied image preprocessing techniques including noise reduction and normalization to improve recognition accuracy.
- Utilized Python and computer vision tools to enhance text extraction performance.
- Contributed to automating document processing workflows, significantly reducing manual effort.

Technologies: Python, OpenCV, Computer Vision

Research Intern – Synthetic Network Analysis

2025

- Collaborated in a 4-member team to analyze synthetic network datasets using machine learning techniques.
- Applied K-Nearest Neighbors (KNN) and K-Means clustering algorithms for pattern recognition.
- Performed data preprocessing, model implementation, and rigorous performance evaluation.
- Extracted structural insights from network data using advanced analysis methods.

Technologies: Python, Pandas, Machine Learning

TRAINING PROGRAM

Python Full Stack Development Training – Pumo Technovation

2025 – 2026

- Completed structured training covering Python fundamentals, OOP concepts, and Django (MVT architecture, ORM, forms, admin interface, email handling).
- Gained hands-on practice with front-end and database technologies including HTML, CSS, Bootstrap, and SQLite.

Technologies: Python, Django, HTML, CSS, Bootstrap, SQLite

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

[Live Demo →](#)

- Designed and developed a fully responsive portfolio website showcasing skills, projects, and internships.
- Implemented clean UI with smooth navigation and mobile-first responsive design.

Calculator Application | HTML, CSS, JavaScript

- Built a responsive calculator with dynamic arithmetic operations and intuitive UI design.
- Implemented comprehensive input validation and error handling for mathematical edge cases.

Contact Form | HTML, CSS, JavaScript

- Developed a structured contact form with client-side input validation for user data integrity.
- Designed user-friendly, clean, and fully responsive layout across varying screen sizes.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL

Database: MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, Figma

Core Concepts: Data Structures & Algorithms, OOP, Responsive Web Design

CERTIFICATIONS

- UI/UX Design** – Novitech (2026)
